

## TOMASZ STANKO QUINTET DARK EYES

The new project of Tomasz Stanko, enigmatically entitled **Dark Eyes**. Recorded in Spring 2009, is now released by ECM records.

**Stanko, praised by New York Times "one of the most original and creative jazz trumpet players in the world", presents his new music and the new band.**

*The trumpeter once again makes an album in which every note — and the spaces around them — have impact. The twilight feel recalls his Miles Davis influence, but these ethereal paintings in sound are all his own. His new north European band feature discreet electric guitar and an electric bass, which brings a new propulsion on, say, Terminal 7. The Dark Eyes of Martha Hirsch builds to a climax of fierce trumpet volleys, but the mood overall is meditative. One of the great European jazz albums of the year.*

*The Times, John Bungey*
